

JOIN TOUR DESCRIPTION

The inconsistent understanding and miss communication makes more a lot of the problem feedback. There was a lot of tourism languages that traveller do not understand as same as the travel agents. So, we are going to explain you what is the join tour to make the same understanding that we have done for more than 30 years of our experience.

Join tour is the travel in-group between the different groups of tourists but go to the same tourist destination, you may get a new friends that go with you in the same or similar itinerary.

It is the low cost traveling for the traveller than you go by private family or private group, but sometimes you have to wait for the fellow travelers who late from the pick up time, traffic jams or who that buy the option tour because some activities is not include in the itinerary such as paddle boat, elephant riding, photography and sometimes you have to change the van by the way that go to your itinerary travel destination.

The pick up time sometime might be late because of traffic jam, same area that have same pick up time or tourist guide cannot find the guest. It is better if you standby about 5 minutes before the pick up time then the next pick up place might be not so late.

Thank you
